

Artificial Photinia Hedge Panel Wall 11SQ FT Commercial Grade UV Resistant

Multi-coloured Mixed Artificial Photinia 'Red Robin' Hedge Screens / Walls UV Stable

Have a special event coming up? Perhaps a wedding or carnival? Our Photinia 'Red Robin' panels feature leaves with vivid green hues and bright red tips, offering an extremely lifelike, evergreen setting with a splash of color. Ideal for commercial spaces such as shops, offices, and cafés, but also perfect for home decor. The density of the foliage makes this screening ideal for those wishing to create some privacy.

Beautify Your Home Outlook Today!

The best part? No maintenance is required and it's super easy to install! Each panel comes as a 40" x 40" 11 SQFT (as pictured). They can be joined together using the integrated clip system around the edge of each panel to make any size you want. Alternatively, they can be cut along the grid on the back to make them as small as you desire. This product is very easy to cut to shape, bend, and manipulate to your liking and can fit any space of any size - quickly and easily turn your boring old fence or outlook into a stunning green oasis.

Beautify your home outlook today with stunning nearly natural artificial Photinia 'Red Robin' panels that instantly enhance any space.
