Order your bulk set of 6 pieces, each piece being 11 SQFT, totaling 66SQFT in total.

## Virtually zero maintenance needed

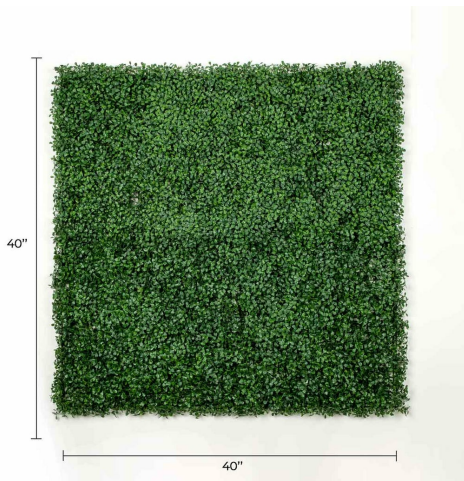

Boxwood bushes look amazing, but real plants need so much of your precious time, effort, and money to survive. Our artificial hedge panels won't keep growing and don't need any watering or trimming. That's sure to save you a lot of money and leave you with plenty of time to attend to the truly important things in life.

## Non-toxic, odor-free, and safe for the environment

Our artificial boxwood hedge walls are made with 100% recyclable materials that are made to withstand harsh weather conditions. They are ISO, REACH, and ROHS compliant to ensure that no harm comes to you and your family. We've taken these extra steps because we want to make sure that our products are safe for the environment and for the people who use them.

By choosing our hedges and other faux evergreen plants, you're helping to conserve water, soil, fertilizer, plastic piping and pots, and many other resources related to growing plants. Not only will you spare yourself the time and effort of caring for yards of plant material, but you'll also be helping the earth breathe.

## A terrific privacy screen

We understand how uncomfortable it is to have your neighbors or other strangers spy on you in your own home. The good news is your boxwood bushes can help you block any unwanted eyes discreetly and elegantly. Our panels are dense enough to deter any nosy neighbors from peering through your fence. It's definitely the most stylish way to maintain your privacy.
