The lush lavender fields vertical garden is a perfect accent to your home, office, or any other gathering place. Within minutes you can instantly beautify any space with this gorgeous green and purple flowering vertical garden that makes any space "pop".

A truly beautiful artificial vertical garden that will transform your space!

Measure first the space you want to cover to figure out how many panels you need. Our 40 x 40" panels are fitted with a snap & lock system so you can easily build a wall of your desired size - simply join a panel together using the clips along the edges and if needed cut off any excess. You can also trim the panels into any shape for that perfect fit.

Designer Plants' faux vertical garden walls are amazing to liven up:

- Patios and balconies
- Gazebos
- Reception areas
- Boring, monotonous hallways
- Living rooms and bedrooms
- Libraries
- Car parks
- Common areas like office break rooms and bathrooms

You can also use them to line your backyard fence. That way, you can block out any nosy neighbors while adding elegance and serenity to your home. Now that's a truly private getaway!

Life Expectancy 5+ Years Outdoors, 15+ Years Indoor

The artificial vertical garden with long-lasting color

All wall panels are treated with UV protection directly inside the leaves, ensuring that your green plant wall art stays green for a long, long time. We offer a guarantee of 5 years, though we can tell you that our vibrant vertical gardens last much longer than that.

No need for endless pruning and trimming

Real plants may smell great and make the air fresher, but they're also a huge pain to maintain. The endless watering, trimming, sweeping up dead leaves, pulling out weeds, spraying insecticide, heaping on fertilizer - it all just gets too tedious at some point.

With our lifelike artificial greenery, you'll do none of that work! All you have to do is make sure it's installed properly, dust it once in a while, and maybe tie back a few leaves if it's really windy where you live. Other than that - your faux vertical garden is set for life.

We are an environmentally-conscious brand

All our fake plants are certified ISO, REACH, and ROHS compliant. They're all thoughtfully made without any harmful chemicals and designed to last years outdoors without any hassles.
