Bring Your Wall To Life Instantly

This stunning artificial living green wall panel has been exclusively designed to transform a space and provide a sanctuary for the senses. It's the perfect high-impact and maintenance-free statement piece that draws people's eyes, brings the outdoors inside and makes everywhere feel wonderfully fresh and alive. The hand-assembled panel features an abundance of verdant greenery and flowering stems that look and feel realistic, down to every botanically correct detail. While the combination of plants has been specially chosen to complement each other, extra plants can be added on request to make the design truly work for you.

Our realistic artificial living wall panel has been UV-engineered to make it suitable for external use. As a result, the plants will not discolor or fade even in the harsh Aussie sunlight – backed up by our industry-leading 5-year guarantee. The fake green wall panel has been fire-tested; making it suitable for use in commercial and domestic environments.

The panel has a metal backing that makes it easy to install and cut or shape to suit your space. It comes with a unique 'snap and lock system' so that it easily connects to other panels, as your collection of realistic artificial vertical wall panels grows! And grow it will, as grouped these panels create a striking masterpiece – a green wonderland of evergreen, tangled, wild, and flourishing nature.

Key benefits of the premium artificial green wall:
