

# Artificial Mixed Boxwood Hedge Panel Wall 11SQ FT Commercial Grade UV Resistant

## Multi-coloured Mixed Artificial Boxwood Hedge Screens / Walls UV Stable

Have a special event coming up? Perhaps a wedding or carnival? Our Mixed Boxwood panels feature leaves with variations in colour, offering an extremely lifelike, evergreen setting. Ideal for commercial spaces such as shops, offices and cafés, however many use this beautiful hedge in their own homes as well. The density of the foliage makes this screening perfect for those wanting to create some privacy.

The best part? No maintenance is required and it's super easy to install! Each panel comes as **40" x 40" 11 SQFT** (as pictured). They can be joined together using the hole and lug system around the outside of each panel to make any size you want. Alternatively, they can be cut along the grid on the back to make them as small as you desire. This product is very easy to cut to shape, bend and manipulate to your liking and is also great for special occasions including as a photo booth.

Beautify your home outlook today with stunning nearly natural artificial boxwood panels that instantly enhance any space.
