

Ultra Premium Home Safe Artificial Plants & Furniture UV Protection Spray 35oz / 1 Litre

Introducing our state-of-the-art UV Protection Spray, crafted with care in the USA, specifically engineered to shield your outdoor furnishings and artificial plants from the relentless sun. This innovative product, designed for effortless application, dries to a transparent finish on most surfaces, ensuring your outdoor décor remains vibrant and unaltered.

Ideal for artificial greenery that may lack UV resistance, especially those acquired from budget-friendly stores or local home improvement outlets, our UV spray provides an extra layer of durability against the elements.

What is UV Shield+ Spray / UV Shield+ Sun Defense Spray?

UV Shield+ is a cutting-edge, clear, water-based acrylic solution, embodying the qualities of an elastomeric membrane. This transparent formula excels in sealing and safeguarding a wide array of decorative items, from synthetic foliage and green walls to floral arrangements and topiaries.

By penetrating the surface, it not only fortifies the material but also enhances its appearance, preventing color fade and aging and keeping dust at bay. This results in a robust, waterproof, chemically, and abrasion-resistant coating that maintains the original hue and extends the lifespan of your items.

Features of UV Shield+ Protection Spray for Outdoor Furniture & Artificial Plants:

- Prevents efflorescence on surfaces
- Resists UV rays, heat, and stains
- Remains clear without yellowing over time
- Safe, non-toxic, and devoid of unpleasant odors

Recommended Uses:

This product is perfect for maintaining the natural aesthetics and extending the durability of:

- Decorative elements in hotels or offices
- Outdoor fabric items like curtains or patio furniture
- Wooden outdoor furniture
- Clay-based items like terracotta

Application Tips:

Ensure the surface is free from dust, oil, and grease before application. The product can be applied by spraying, wiping, or

dipping intricate items. For dipped items, hang to dry naturally for optimal results. If spraying, use a fine mist until the surface is evenly covered.

Technical Specifications:

- Storage: Keep at moderate room temperature, sealed tightly
- Appearance: Clear
- Finish: Semi-gloss or Satin
- Coverage: Approximately 107-161 square feet per quart (10-15 square meters per liter) per coat, varying with surface type

Cleanup and Storage:

Promptly clean all equipment with water after use. Ensure artificial plants are dust-free before storing. Keep the product in well-sealed containers at moderate temperatures.

Please Note:

Conduct a patch test prior to full application as we cannot assure compatibility with all materials. This product is not intended for ingestion or use on living beings. Goods ship from Australia via Air Express. Allow 2 days extra from regular shipping times.
