

Black Metal Planter Medium + Wheels

Out of stock: Shipping around 20 January.

This elegant powder-coated black metal planter, measuring approximately 43.3 inches in length (external end to end), 13.8 inches in width, and 13 inches in height with wheels (9.8 inches without), is an ideal choice for both indoor and outdoor settings. It's specifically compatible with 40-inch-long hedges from the Designer Plants Artificial Hedge range. The planter's key selling points include:

1. **Versatility and Mobility:** Equipped with detachable wheels, this planter offers ease of movement and flexibility in placement, making it suitable for various spaces and design needs.
2. **Ease of Assembly and Transport:** Designed for simple assembly, the planter arrives in a flat-pack format, ensuring it's easily transported.
3. **Efficient Drainage Design:** The absence of a solid base allows for quick and efficient water drainage, making it an excellent choice for housing artificial hedges, while also ensuring longevity and maintenance ease.

These features, combined with its stylish design and durable construction, make the metal planter a practical and attractive choice for enhancing garden or indoor space.

The planter does not come with a base. Rather the faux hedge rests on the internal frame of the sides of the planter walls.

Faux hedges that are perfect fits for this planter:
