- **Customization:** Easily cut to desired dimensions.
- **Applicability:** Ideal for both residential and commercial undertakings.

**New Feature:** Now, each panel comes with **5 exclusive pink inserts**, allowing you to customize and adorn your green wall panel as you see fit, adding a personal touch of color and flair to your tropical paradise.

Dive into the tranquility of the tropics within your own space with the Green Tropics Artificial Vertical Garden. Start your transformation today and cultivate your very own tropical oasis!

### The artificial vertical garden with long-lasting color

All wall panels are treated with UV protection directly inside the leaves, ensuring that your green plant wall art stays green for a long, long time. We offer a guarantee of 5 years, though we can tell you that our vibrant vertical gardens last much longer than that.

### No need for endless pruning and trimming

Real plants may smell great and make the air fresher, but they're also a huge pain to maintain. The endless watering, trimming, sweeping up dead leaves, pulling out weeds, spraying insecticide, heaping on fertilizer - it all just gets too tedious at some point.

With our lifelike artificial greenery, you'll do none of that work! All you have to do is make sure it's installed properly, dust it once in a while, and maybe tie back a few leaves if it's really windy where you live. Other than that - your faux vertical garden is set for life.

## **We are an environmentally-conscious brand**

We believe in minimizing our carbon footprint. Living plants may seem like a more eco-friendly choice at first, but our artificial vertical gardens only emit 20% of the total overall emissions of a living garden. This is because they require very little equipment to install and need almost zero maintenance.

All our fake plants are certified ISO, REACH, and ROHS compliant. They're all thoughtfully made without any harmful chemicals.
