Looking to see this stunning artificial vertical garden in the "live" before ordering? You can secure yourself a small (10 inch x 10 inch) sample on this listing.

You can view the full panel listing [here](#).

Thoughtfully crafted with our advanced UV protection technology, this artificial plant wall will outlast others - Unlike a real garden that demands daily maintenance, you'll only need to dust off your fake plants once in a while and you're good to go.

Get that lush, green country paradise you've always wanted. No watering needed!

Instantly beautify your space into something you'll love forever.

Real plants are lovely, but their maintenance can be a pain. They require so much care, including:

- Installing them in places where they can get enough sunlight
- Watering them daily
- Trimming
- Applying fertilizer and pesticides
- Sweeping up fallen leaves
- Just keeping them from dying

Not to mention you have to deal with pollen and insects (though butterflies are neat).

Using the beautiful lush spring vertical gardens takes away a huge chunk of work and leaves you with lush, green backdrop to enjoy any time of the year. With this super easy-to-install ultra-luxury artificial vertical garden you can turn any wall or surface into a truly magnificent space.

Simply hang your artificial vertical garden where you seek a stunning outlook.

The artificial vertical garden that keeps you staying green all day, every single day

Designer Plants' wall panels are protected with in-leaf UV blocking technology that allows them to retain their vibrant green hues. Backed with a 5-year guarantee, our state-of-the-art UV protection will put you at ease and allow you to simply enjoy your beautiful plant wall decor.

A perfect DIY garden for anywhere

Looking for an easy and satisfying DIY project? Look no further - our fake vertical garden walls are equipped with a convenient snap and lock system that lets you combine multiple panels. These panels can easily be cut and trimmed to your desired shape, allowing you to get creative and install them wherever you like.

Designer Plants' plant panels & living walls suit virtually any surface, including:

- Office or clinic walls
- Reception areas
- Hallways
- Kitchen and dining areas
- Outdoor walls
- Patios and balconies
- Backyards and gardens

You can also use them to keep any nosy neighbors or strangers away by strategically placing them along your fences. The Country Fern Artificial Vertical Garden panel is perfect for adding privacy due to its richly dense foliage.

The earth-friendly option

We use 100% recycled materials to craft our beautiful faux plant wall art. Our products are free from harmful chemicals, including heavy metals, and are ISO, REACH, and ROHS compliant. Looking to recycle our artificial green walls? Many plastic recyclers can process PE plastic quickly and easily.
